

M'ADOO WILL NOT BECOME CANDIDATE

Decision, He Says, Is Irrevocable—Wants To Rehabilitate His Private Affairs

New York, June 19.—Wm. G. McAdoo, who has been considered by party leaders as one of the presidential candidates for the democratic nomination, announced today he could not permit his name to go before the San Francisco Convention.

"The decision," he said, "is irrevocable, as the path of duty seems to me clear and unmistakable."

His decision was made known in a telegram to Jovett Shouse, democratic delegate at large from Kansas, who had telegraphed Mr. McAdoo that sentiment throughout the country rapidly was crystallizing in his favor, that his friends would like to have him permit his name to be presented to the convention and that they were certain he could be nominated and elected.

Mr. McAdoo's telegram follows:

"Your telegram of June 17 requires an explicit and immediate answer. I am profoundly grateful to you and my other generous friends, who with such spontaneity and unselfishness have, without my solicitation, advocated my nomination.

"To cause their disappointment distresses me deeply, but I am unable to reconsider the position I consistently have maintained, namely, that I would not seek the nomination for the presidency. I cannot, therefore, permit my name to go before the convention. This decision is irrevocable, as the path of duty seems to me clear and unmistakable.

"The consideration which compelled me to resign as Secretary of the Treasury and Director General of Railroads, after the armistice in 1918, in large measure still prevails. I must have a reasonable opportunity to rehabilitate my private affairs and to make that provision for my family, which in time of peace, is at once the sacred duty and cherished desire of every right-thinking man. Having been out of office less than eighteen months, I have not yet been able to accomplish these objects.

"Moreover, a presidential campaign imposes upon the candidate unavoidable expenses which I am unable to assume, and which I do not want my friends to assume.

"The record of the recent republican campaign and the platform and candidates of the republican convention make democratic victory in the next election almost certain. Victory would be certain if the democrats adopt a straightforward, unequivocal, unevasive, honest and liberal platform and put forward candidates who will command public confidence.

"We must stand squarely for ratification of the League of Nations without debating reservations, and we must be direct and explicit on the important domestic issues. The time is not propitious for equivocation or for appeals to blind passion or to doctrines of hate, or for reactionaries and those who would shut their ears to the great and swelling voice of humanity which cries aloud for the restoration of peace and good will at home and in the world and for the opportunity to live in an atmosphere of justice, progress and prosperity.

"I feel sure that my friends will appreciate the sincerity and propriety of my position and that they will do everything in their power at San Francisco to assure the continuation of the enlightened principles and liberal policies of democracy. These are more than ever essential to the security and well-being of the American people."

RUMORED ATTACK ON FORMER EMPEROR

(By Associated Press)
Doorn, Holland, June 19.—Persistent rumors here say a German with a false permit, entered the residence of the former German Emperor Wednesday afternoon, and tried to kill him. It is said that Count Hohenzollern escaped uninjured. His secretary said today the attack story was untrue.

NEW IDEA IN SALE OF WOOL FOR STATE

The Department of Markets, of the College of Agriculture, originated the plan of pooling all the wool in the state into one large central pool. The popularity of this idea is well demonstrated by the fact that applications have been made for wool growers from Ohio and Indiana to have their wool in this sale. This state auction will be held in a tobacco warehouse at Lexington, June 28th. Some 30 or more counties in the state have pooled their wool which is being graded by expert graders using the government standards. Fifty-pound samples will be submitted from each county at the central auction and there the buyers will have the privilege of bidding on about 750,000 pounds of Kentucky's wool.

CHAMPION WHEAT GROWER HONORED

(By Associated Press)
Prince Albert, Sask., June 19.—Seager Wheeler, "wheat wizard of Canada," has been conferred upon him the honorary degree of Doctor of Laws by Queen's University, Kingston, Ont. Mr. Wheeler has won five international championships with his wheat and many lesser honors and holds the world's record of wheat production with 82 bushels to the acre. Though his improved varieties of wheat have made millions of dollars for Canadian farmers, he has remained in moderate circumstances. His farm near Rosthern, Sask., on the Canadian National Railway, consists of only 190 acres.

MAKE SURVEY OF KENTUCKY SCHOOLS

Louisville, Ky., June 19.—The General Educational Board, 61 Broadway, New York City, will make a school survey of Kentucky providing for the law creating the Kentucky Educational Commission, recently appointed by Gov. Morrow. Members of the commission met at the office of Alex G. Barrett and invited the General Educational Board to make the survey. The commission had the assurance that the General Educational Board will accept the work and complete the survey and report by the fall of 1921. The law required that the survey be made by non-residents of the state.

WORLD'S SURGEONS GATHERING

(By Associated Press)
Cleveland, Ohio, June 19.—Between 2,500 and 3,000 delegates are expected to attend the 76th annual session of the American Institute of Homoeopathy at associated organizations to be held here June 20 to 25. Noted homoeopathic surgeons and physicians of Europe and North and South America will be present.

GROWERS HOLD WOOL

(By Associated Press)
Enid, Okla., June 19.—Wool growers of Oklahoma are now endeavoring to dispose elsewhere of their clips after the failure of a wool sale to have been held here late in May. Only one buyer, representing a commission firm at Wichita, Kan., appeared at the sale and his bid of 20 cents a pound was refused and the sale called off. More than 150 growers were present with 10 carloads of wool.

NATIONAL GUARD CALLED TO DULUTH

Mob Threatens 14 Negroes Held There In Connection With Recent Attack

(By Associated Press)
Duluth, Minn., June 19.—National guardsmen from the State encampment at Fort Snelling, arrived here today to reinforce the guard about the county jail, where fourteen negroes are held in connection with the attack upon a young white woman.

The soldiers are armed with machine guns and rifles and have orders to shoot to kill if necessary, to uphold the law. The city is quiet. Officers are confident the guardsmen will be able to cope with any plot to raid the jail.

MAJOR LEJEUNE TO HEAD MARINES

Washington, June 19.—Appointment was announced today of Major General John Lejeune, commander of the famous Second Division, when it broke through the German line in the Meuse-Argonne offensive, being appointed Major General commandant of Marine Corps, to succeed Maj. General George Barnett. Secretary Daniels said the appointment was in line with the policy of reward of officers who served with distinction during the war.

MORE IRISH TROUBLE

Londonderry, Ireland, June 19.—This city spent another night of terror last night, the result of violent rifle and pistol fighting between the Nationalists and Unionists. Comparative quiet was restored after a two hours pitched battle at Riverside.

GOLBY DENIES REPORT

Washington, June 19.—Bainbridge Colby declared in a state ment today that he was not even a "reciprocity candidate" for permanent chairman of the Democratic National Convention. He said "many members of the party have a much stronger claim upon its recognition."

ANCESTRAL TRACING IS OBJECT OF MISSION VISIT

Honolulu, June 19.—Twenty Maoris from New Zealand have arrived here with James M. Lambert, head of the Mormon mission in New Zealand, for a series of talks to establish or refute the theory that the Maoris and the Hawaiians are sprung from the same stock. The Maoris will spend two months in the Hawaiian Islands as guests of the Mormon church here.

HARDING'S BROTHER

MISSIONARY TO INDIA
Buffalo, N. Y., June 19.—When the board of managers of the Woman's American Baptist Foreign Mission Society, a session here, discovered that the Rev. F. M. Harding, a Baptist missionary to the Gargys, a head-hunting tribe in the Tura hills, Assam, India, was a brother of the republican presidential nominee, there was keen competition on the part of the various districts to take over the support of the 92 village schools which Mr. Harding is supervising. Ohio claimed the privilege of supporting them all, but finally conceded one school to each of the ten districts in to which the society has divided the United States for administrative purposes.

DETROIT PAYS HIGHEST AUTO TAXES EVER PAID

Detroit, Mich., June 19.—The highest automobile luxury taxes ever paid in the United States, amounting to \$21,500,000, were collected from manufacturers in and around Detroit for the first four months of 1920, according to John A. Grogan, collector of internal revenue. This sum represented an expenditure of about \$417,857,000 by customers. The manufacturer paid this tax and passed it on to the purchaser.

CLOTHIERS WIN BIG SUIT AGAINST UNION

Rochester, N. Y., June 19.—Justice Rodenbrenk today handed down a decision sustaining the Michael Stern Clothing Company of this city, in its suit against the Amalgamated Clothing Workers of America, for a permanent injunction and \$100,000 no labor union has a right to damages. The decision declares make itself a labor monopoly and says the Amalgamated tried to do so by endeavoring to undermine the United Garment Workers of America, the American Federation of Labor union, which the Sterns factories recognized. The decision warns that "ultimate success of the labor movement lies in the direction of a just and reasonable administration of the unions' affairs with advantage not only to employers and employees but to the public as well." The case was the result of a strike called by the Amalgamated last July.

Philadelphia, June 19.—A resumption of the railroad strike today somewhat crippled freight service on the Reading and Pennsylvania railroads.

CLOTHES PROFIT BRINGS ARREST

(By Associated Press)
New York, June 19.—Frederick Gimbel, a member of Gimbel Brothers operating large department stores in several cities was arrested on federal warrants here today charged with profiteering. It is charged that he made profits of 90 to 275 per cent on clothing. It is said a suit costing \$33 was sold for \$75; a \$5.50 mohair suit brought \$20; a \$15 suit brought \$33.75 and another suit, costing \$5.50 sold for \$15, according to the Department of Justice.

HOUNDS TRAIL GIRL'S ASSAILANT

Capt. V. K. Mulligan left Lexington last night at 7 o'clock with bloodhounds in an automobile for Falmouth where, according to a report from the county attorney, Mary Tryman, a stepdaughter of Elwood Fryer, farmer, was struck on the back of the head with a club by a white man and dragged to a wall on the side of the road. The unidentified assailant was frightened away by passersby and the girl was not injured seriously.

DIAMOND RING CASE UP AGAIN

In the quarterly court Friday a jury returned a verdict in favor of the defendant in the case of Mrs. Alice Cunliffe, administratrix, in the estate of her husband, James Cunliffe, vs. Mrs. Bessie Cunliffe. The suit grew out of the disputed ownership of a seven-cluster diamond ring, and the case has been tried three times. The first trial was in quarterly court, where the plaintiff claimed the ring as her property, and a jury rendered a verdict in her favor. The case was taken to the circuit court by the defendant and it went out upon a preliminary instruction given by Judge Shackelford to the jury trying the case to find for the defendant. The plaintiff then filed another suit in the quarterly court, this time alleging that the ring was the property of her deceased husband, she bringing the suit in her name as his administratrix, but the jury thought otherwise, and gave a judgment for the defendant. The costs in the case, outside of attorney fees, amount to as much as the value of the ring.

INSPECTING ROAD WORK

County Road Engineer Baxter went where he is looking after the condition of certain roads now being improved. He was accompanied by County Judge W. K. Price, who accompanied him to the engineers' convention at Louisville. There is considerable road work being done at present and the attention of county officials is kept constantly busy looking after the interests of the county.

LOCAL DOCTORS AT BIG MEETING

Richmond Furnished Important Part of Program At the Medical Association

Richmond physicians who have been attending the annual convention of the Kentucky Valley Medical Association at Winchester, are returning home today. They report the meeting as being one of the best ever held, the attendance being out of the ordinary, as well as the program, which was replete with new and interesting features.

There were a number of matters developing from the late war, discussed. The members of the Clark County Medical Society entertained the visitors at a luncheon Friday night. This was a most enjoyable and fitting finale to the two days session. The business meeting was held Friday afternoon.

Dr. R. C. Coomer, of Speedwell furnished one of the numbers on the program which proved to be a very important one well handled. It treated on subjects developed during the war and there were many important details and phases of surgical and medical work never before brought before the Association. The title of the address was "Some Medical Lessons from the War," and brought to the minds of those present, a vivid picture of the battlefields.

"Treatment of Pneumonia," by Dr. J. G. Bosley, of Richmond proved another feature of the meeting. This important matter, which is attracting the attention of members of the State Board of Health, was greatly appreciated.

Dr. M. Dunn, also of Richmond, was in attendance during the meeting.

Carl Littrell Kills

His Brother-in-Law
Carl Littrell, of Danville, shot and killed his brother-in-law, John Hamilton, to death on the public highway near Wallstown, Casey county, Friday. A pistol was used and it seems that there were no witnesses to the tragedy. The killing was the result of bad blood existing between the men for some time. Littrell gave himself up to the authorities. He is about 40 years old and stands well in the community in which he lives. Hamilton, who was about 35, also bore a good reputation. He leaves five little children, his wife having died recently.

PROMINENT OFFICIAL HERE

Hon. John L. Alverson, chief clerk of the government printing office in Washington, has been here for several days visiting his mother and sister, Mrs. Mattie Alverson and Miss Rose Alverson. He is enjoying his annual vacation. Mr. Alverson holds one of the most important and responsible positions in Uncle Sam's great printing plant at the capital. He has been connected with the institution for about 20, going there with the late Governor McCreary when he was a member of congress. Mr. Alverson has many warm friends here who always give him the "glad hand" when he gets back home.

BETTY BLYTHE LEADING STAR

Betty Blythe has the feminine lead in "The Third Generation," the superior production tonight at the opera house. She is associated with an all-star cast. Miss Blythe is a Los Angeles girl and was educated in the University of California and in Paris. She went into pictures first in such productions as "Over the Top," etc. In the "Third Generation" she has the part of New York society woman who persuades her husband to spend his time and money on social affairs to the detriment of his business. At last she finds herself forced to live in a Harlem flat, existing in the most simple way, all her former position and wealth gone into thin air. But after a time she finds herself able to be happy with her husband as he recoups the family fortune.

BRIDE MUST GO BACK TO FLORIDA

Bowling Green, Ky., June 19.—Mrs. Margaret Warden Larmon, 16 year old daughter of L. J. Warden, of this city, wanted at Tallahassee, Fla., as accessory in the alleged murder of Ralph Rushing, a taxicab driver, and for which crime her husband is now in jail in that city awaiting trial for murder, will have to return to Florida. Judge Moss this morning handed down his opinion in the habeas corpus proceedings to prevent the return of the young woman to Florida.

Following the return of Mrs. Larmon to this city from Detroit, where she had gone with her husband after the alleged murder proceedings were instituted by her father in the Juvenile Court to have here declared a delinquent and she was placed under his care.

SEVERAL KENTUCKY PAPERS SUSPEND

Bob Elkin, the popular manager of the Lancaster Record, was elected president of the Kentucky Press Association at its annual mid-summer meeting held at Covington, Thursday, Friday and Saturday. The paper and supply houses of Cincinnati, and the Chamber of Commerce of Covington, gave the newspapermen royal entertainment. The high price of print paper and soaring costs in all lines, occupied the attention of the newspapermen chiefly at their business sessions. Several Kentucky county newspapers have suspended publication within the past few months on account of the fearful conditions in the paper market. Among the recent ones to "give up the ghost," were the Winchester Daily Democrat and the Burgin Weekly Independent.

"HEALTH WEEK" AT EASTERN NORMAL

Next week is "Health Week" at the Normal school. President Coates has secured the services of some splendid lecturers from the Board of Health, who will come to Richmond next Tuesday and give a series of lectures and illustrations on "How to Care for the Human Body." During the term which closed last week Dr. McCormack sent five of his most able assistants to Richmond, and for one week they conducted a health campaign that was most satisfactory to every one participating and to President Coates and those in charge of the work. With the increasing number of students, this campaign promises to be even more popular than the preceding one.

FIFTY STUDENTS COMING NEXT WEEK

Despite the crowded condition at Eastern Normal, there are more students coming, the management having been informed that the coming week will witness the arrival of more than fifty additional ones. These are the class who will specialize in the study work and be able to finish by the close of the summer term.

Heretofore the enrollment has not been finished during the first week of the summer school, and this year will be no exception. The students and teachers coming next week are from various directions and localities. Some of them have been here before and are desirous of completing special studies which they have been interested in. Plans for their reception are being made and quarters will be arranged for them is possible. This will increase the enrollment to considerably over the 600 mark, one of the greatest enrollments in the history of the school.

ANOTHER RAISED \$1 BILL SHOWS UP

Federal Officers Believe Gang Is At Work In This Section At The Game

The band of money "raisers" is believed to be operating in Madison county, according to Deputy U. S. Marshal Hugh Samuels, who was in Berea Friday, where S. Q. Linnhart gave him a "greenback" which had been raised from \$1 to \$10 valuation. The substitution of the \$10 in the corner tag was very crudely done, and how it "got by" is almost past understanding. The letters were drawn with pen and ink and then cut out and pasted on the bill. The same was done with the word "Ten" which was pasted over the lettering "One" on the bill.

This is the second raised bill of the kind which has been intercepted within the past week, the other having been passed on a Richmond business man. Mr. Linnhart told Mr. Samuels that he knows who gave him the bill, and steps are to be taken at once to apprehend the guilty party as it is a serious offense against Uncle Sam's laws to try a trick of this kind. Mr. Samuels says that he has information which indicates that one man is doing the work of raising the bills and a couple of others are passing them wherever possible. A description of the man who passed the spurious note on Mr. Linnhart here is said to agree with that of the man who worked Mr. Linnhart at Berea.

MANY TEACHERS TAKE EXAMINATIONS

The second day of the examination of teachers is progressing in a very satisfactory manner and the aggregation, which numbers 42, is a busy one. Many counties are represented, some coming from distant sections of the state. There will be an effort made upon the part of Superintendent Edwards to have the papers graded promptly, in order that those who pass successfully may be given schools for the coming term, should they desire them. The list taking the examinations, together with their places of residence, is as following:

Lillian K. Norman, Glenoe; Alta Ruth Kelley, California; Mrs. Ida Tribble, Bybee; Anna Gray Orr, Versailles; Louise McCormack, Waddy; Hallie M. Wallace, Keyser; Lelia Grizzard, Valley View; Sarah Northcutt, Walton; Lucy C. Brooks, Waco; Marguerite Schirmer, Ghent; Mary Coons, Shelbyville; Charles Paynter, Mt. Olivet; J. W. Jewell, Burning Springs; Maggie Hall, Lohair; N. O. Deatherage, Barbourville, Ora Mae Turpin, Richmond; Roy Roberts, Hyden; Arlie Boggs, Eolia; Beryl Boggs, Eolia; Thomas P. Vincent, Melton; Myrtle Sharp, Taylorsville; Bessie Walters, Eagle Station; Ruby Ingram, Shelbyville; Agnes Daugherty, Versailles; Mrs. Hume Tatum, Silver Creek; Stella McKeehan, Big Hill; Margaret Abrams, Big Hill; Scudder Abney Conway, Rachel Norville, Berea; Mary Alice Byar, Augusta; Hazel Albright, Brodhead; Esther Cart, Versailles; Pearl Hicks, Brodhead; Pattie Wells, Richmond; Bertha Gentry, College Hill; Anna Gentry, Moberly.

WORKMAN BADLY INJURED BY FALL

R. M. Johnson, residing on Fifth street, is at the Pattie A. Clay Infirmary suffering from a dislocated hip and other injuries sustained in a fall Friday when while working on a scaffold at the T. H. Collins place, Fifth street and Moberly avenue.

It was while changing some material that Mr. Johnson lost balance and fell a distance of fifteen feet. He was rendered unconscious for a short time and was taken to the hospital, where he soon revived. For a time it was believed he had suffered internal injuries, but an examination Saturday morning did not disclose any evidence of this and it is believed that while his injuries are serious in a way, he will recover.

FRIENDLY HOME FOR WOMEN IS HELPED

Salvation Army Does Fine Work in
Louisville Institution For
Women and Girls.

The Susan Speed Davis Friendly Home for Women in Louisville is controlled and operated by the Salvation Army and is one of the institutions to be helped by the money raised in the Home Service Appeal to be made by the Salvation Army, May 10 to 20. Four times as many cases were cared for in this Home during the past year and during the year before. This work has been carried on in the face of trying difficulties. It has been necessary to remodel and refurnish the Home, and in spite of this many have been cared for. Forty-three girls and young women were cared for there during the past month. Only six per cent of those cared for are over 18 years of age and many are under 14. The Susan Speed Davis Home gives a welcome to all unfortunate girls and women, no matter from what part of Kentucky they come.

TOUCHING TRIBUTE TO SALVATION ARMY

Kentucky Marine, Now Sleeping at
Chateau Thierry, Sent Beautiful
Message Home to Loved
Friend.

One dark night, shortly after the American marines had received their first baptism of blood at Chateau Thierry, a Kentucky boy, Gilbert Young, of Springfield, sat crouched in a dug-out writing a letter home. In it he described to one of his dearest friends and former teachers, Prof. George Colvin, now State Superintendent of Public Instruction of Kentucky, the terrible ordeal through which he had passed unscathed.

In one paragraph of that letter, now a precious and treasured memorial, the young Kentucky marine told of the great work that had been done during those trying hours by the various welfare agencies. "But greatest of them all," he wrote, "the greatest and best of them all, God bless them forever, is the Salvation Army."

The body of Gilbert Young, the brave Kentucky boy, lies today at Chateau Thierry beneath the lilies of France, but his soul, poured out to his friend, goes marching on in tune with the great work the Salvation Army is seeking to accomplish, now that swords have been turned into plowshares and spears into pruning hooks.

The sacrifice of Gilbert Young and the hundreds of other young Kentuckians who gave their lives for liberty during the world struggle will cause many a heart in the great Blue Grass state to pour out its benediction upon the Salvation Army when money is solicited in the Second Home Service Appeal campaign May 10 to 20. The Salvation Army today as always stands ready to help wherever there is a need.

URGE KENTUCKIANS ON IN BIG DRIVE

State Conference Held to Arouse Interest in Salvation Army Home Service Appeal, May 10 to 20.

In preparation for the final drive in the Salvation Army's Second Home Service Appeal, May 10 to 20, in Kentucky and other states east of the Mississippi river, a state conference of workers was held in Louisville on Wednesday.

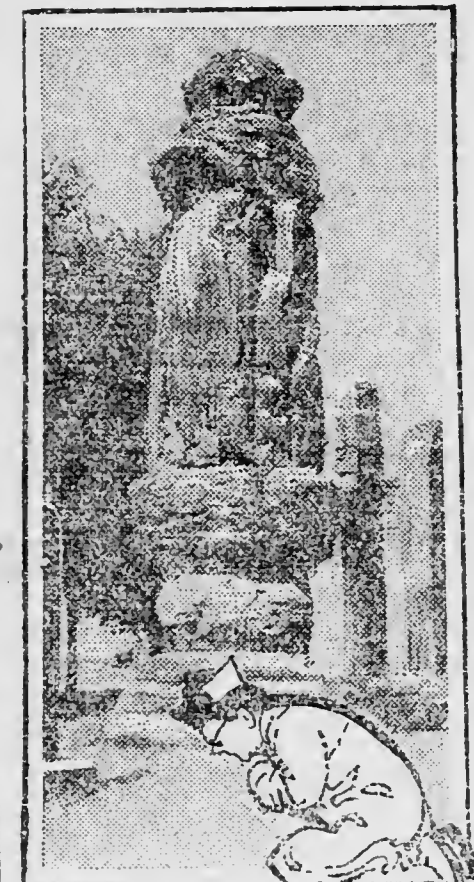

Judge Henry S. Barker, of Louisville, the state chairman, presided and the toastmaster was Ben S. Washer, of Louisville, vice chairman and former national president of the Young Men's Hebrew Association. Governor Edwin P. Morrow, honorary state chairman, could not be present but sent a telegram giving his hearty endorsement and urging Kentuckians to leave no stone unturned to put Kentucky in the forefront of states in contributions. Governor James S. Cox of Ohio was also prevented from attending and sent a telegram of endorsement.

Prominent workers from all parts of the state pledged themselves to do their best. Prof. George Colvin, State Superintendent of Public Instruction, delivered a splendid address in which he called upon all for renewed efforts in the big drive. Leading officers of the Salvation Army from this section told of their experiences in the actual work of the Army, most of them having served from 20 to 35 years in the ranks of this great organization.

Among other prominent workers in the Home Service Appeal are: Ben L. Bruner, secretary of the state executive committee; John R. Downing, treasurer; Dr. W. S. Lockhart, chairman of the speakers' bureau; Judge Walter V. Gregory, chairman of the publicity committee; Mrs. C. Malcolm Bullitt, Mayor George Weissinger Smith of Louisville, Hon. W. P. Lincoln, Marvin H. Lewis, Alvin T. Hirt, Dr. E. L. Powell, Dr. E. Y. Mullins and Dr. Charles W. Welch.

It's the High Cost of Dying in China

A Typical Chinese Monument

The Chinese bury their dead on the mountain side, where the earth is dry and there is less danger of floods. The monuments are built along the highway to inform the public of the great men who have lived and died in the neighboring villages.

A brief history of the dead man serves as an epitaph, and a tortoise or dragon, carved into the stone, symbolizes eternal life.

Death is an expensive proposition for the Chinaman. Only the leaders of community life are honored by monuments along the highway. But by the time even the average citizen's funeral expenses are paid—with numerous pallbearers and feasts for the mourners—well, it's cheaper to live.

There is an average of one doctor to every 400,000 Chinese. So the Interchurch World Movement, which America's evangelical bodies are cooperating, intends to cut down funeral expenses for China by opening a large number of new hospitals and by strengthening existing institutions.

Would You Lose If Your Property Burned Today?

The destruction of that \$5,000 home you built a few years ago would lose to you the original cost, plus another \$5,000. For it costs \$10,000 now to build the \$5,000 home of 1914.

Likewise the loss of today of the business property that cost \$50,000 before Germany went mad, would be \$100,000—probably \$100,000 would not replace it.

FOR THE MOST ECONOMICAL TRANSPORTATION

Chevrolet "V-8" 20" Roadster, 12110, Rock, Phil, Mich.

The present day value of an automobile lies in its degree of utility. The more it serves the more it saves. And in measuring the value of the Chevrolet by these standards, its real worth is revealed.

Like a true friend, the Chevrolet will wear well. It will not fail you in time of need. It will not be a burden to keep. And the closer your acquaintance grows the greater will be the charm in its possession.

The Chevrolet represents an unusual value. This you will appreciate at first glance. But to know the full extent of its real worth, you must know more of the efficiency of its service—its capabilities for practical time and labor-saving utility.

The popularity of Chevrolet cars has attained a reflection of the sound judgment of the thousands of discriminating purchasers who were convinced that the vast resources and sound manufacturing policies of the Chevrolet Motor Company were adequate to insure the production of thoroughly worthwhile products.

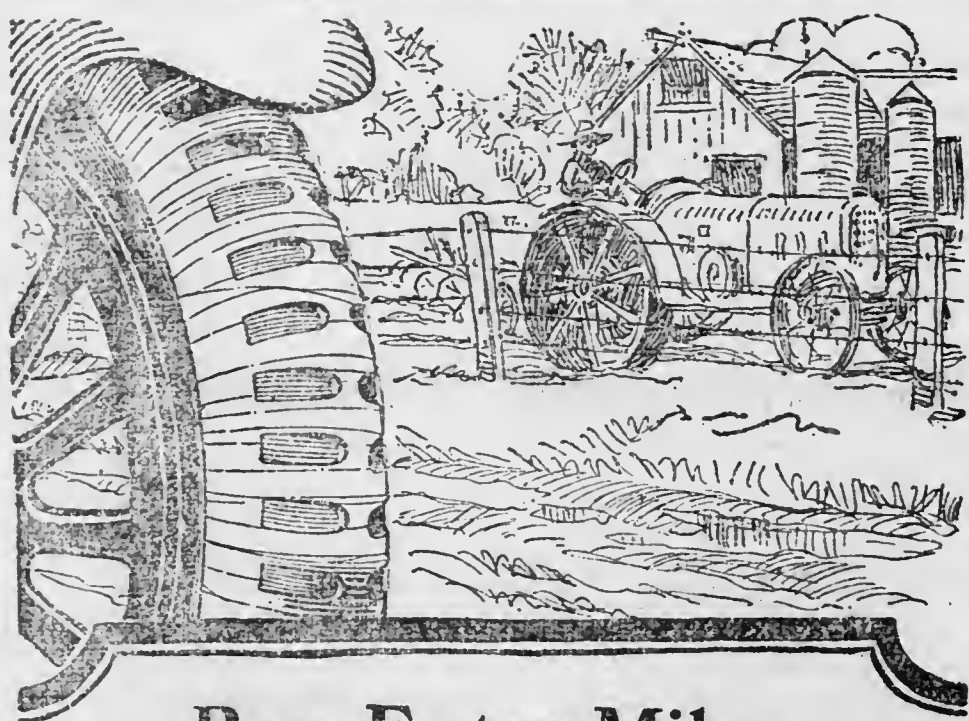

And the remarkable records that Chevrolet cars have made in the hands of these owners is conclusive proof that Chevrolet quality has an unquestionable right to the recognition and endorsement of all who believe in sane spending and sound values.

RICHMOND COMPANY DRIVES "TRAIN" THRU

The Richmond Motor Company continues to do business and is bringing in another "shipment" of cars, doing its own shipping, but the coming week will record another "train" bound for Richmond from Columbus, O.

The company is delivering a goodly number of machines every week, although the shipping facilities require that they deliver their own cars, which they are doing.

The list for the following week is as follows: Alfred Cruise, Jas. Noland, Edward Broadus, Robt. Brown, Reed Jones, Alex Turpin, Holman Todd and James Hayden.

Messrs. J. H. Dean and Robert Maupin, of the Richmond Motor Company, accompanied their corps of men to Columbus and helped bring the last shipment of cars through. Mr. Dean spoke of the excellent condition of the roads in Ohio and stated that although it was his own home state there surely is plenty of room for improvement in the roads of Kentucky.

GOOD ROADS IN THE PHILIPPINES

Natives Spend Much Time and Money On Highways and Schools These Days

Strange as it may seem, the Philippines Islands are spending most of their money in building highways, since the introduction of the automobile. Hon. Jaime C. DeVeyra, re-elected as Philippine Commissioner at Washington, reports that many of the natives who are interested in the road work and automobiles, spend much of their time in road building, instead of murder, as before the Spanish-American war.

"The smaller islands, as well as the bigger and more densely populated ones, are given the advantages of wonderful highways. Rugged Hahol Island has its first class roads over the hills into the interior. 'Dark and bloody Samar' has its system also, mostly along the coasts where formerly blood thirsty Pulajanes lay in wait for landing soldiers or blue jackets.

"The public works bureau has done wonders and combatted many difficulties and so have the auto pioneers who first took a chance in the provinces and established truck lines into the interior. The island of Leyte was an example of this. Rich and fertile in the interior, but with no transportation, its thousands of hemp and copper were formerly packed to the coast cities on the backs of diminutive ponies. Then a line of trucks was put in. It was a revelation to the islanders but they appreciated it, and the system has been the making of Leyte, together with the roads that made it possible.

EXTRA CENT MEANS BETTER ROADWAYS

With the one cent extra for state tax, the dealers have another account to keep now, since they will have to make a report every month to the county clerk. This they state, will not amount to a great deal individually. However, the entire amount will be something worth considering. The local dealers are registering in a very satisfactory manner and it is believed that the fund will be an extensive one, when the consumption of the entire county is totaled.

The recent General Assembly imposed the tax, which is expected to

yield \$40,000 a month. At the time the bill was passed gasoline was selling for twenty-six cents a gallon. Since then the price has been increased by dealers as a result of natural market conditions. The dealers add another cent to make up for the state tax. Dealers are required to make monthly reports to the county clerk, showing the volume of sales. Like all other taxes, this one is being passed along to the ultimate consumer. Motorists generally, however, are satisfied, since their penny per gallon goes toward making better roads.

SISLER BLAZING TRAIL FOR BATTERS

Chicago, June 19.—Geo. Sisler, star of the St. Louis Club, today is blazing the trail for the batters of the American League.

With the season a third finished, "Babe" Ruth, champion home run hitter, seems certain of establishing a new record, as he is only eleven behind the mark of 29 he set last season. Ruth drove out his 18th smash during the first game of the Chicago-New York series, driving the ball into the right field bleachers. He is

Lalley Light and Power Multiplies Labor on the Farm

The actual time and labor savings on the farm with Lalley Light and Power are so conclusive that practically all Lalley owners figure that it actually takes the place of man-power.

They learn that it does this by enabling the same help to do more work; or by getting the same amount of work out of a smaller number of helpers.

Thus thousands of families all over the country are buying Lalley plants for other reasons besides their wonderful light.

They are even more attracted by the actual savings its power makes in time, money and especially in man-power.

Come in and let us prove its labor-saving economy out of actual owners' experience records. When seeing the Lalley you will the more readily understand its possibilities.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep, I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today.

WORK CAUSING DAMAGE TO CORN AND TIMOTHY

In some sections of the state corn and timothy are being damaged by the well known army worm. This insect some times does its injury by night and thereby is rather misleading as to its identity. Contrary to what is commonly supposed the army worm does not always "march" or go in little groups; but they feed like the cut worm and only at long intervals assume the marching habit. They are found practically every year in small numbers and it is only occasionally that they assume such numbers as to be very destructive to cultivated crops.

Tests That Proved Hudson Also Speak for Essex

Both Hold Performance Records That Have Never Been Equalled

In all Hudson's unmatched records this important fact is clear: No ability is sacrificed in one direction to gain supremacy in another. Hudson is the fleetest. Its stock car speed records have never been equalled. On the speedway its racing cars won more points than any other team ever gained.

But its speed means no forfeit of other qualities. For in official tests, the Super-Six has also out-performed all other types, in endurance, hill-climbing and acceleration. In every motor performance it has established leadership by unanswerable proofs.

Hudson Records Prove Its All-Round Mastery

Only a supreme advantage that others cannot use, could account for such all-round dominance. Hudson has it in the Super-Six motor. It minimizes vibration to within 10% of vanishing—nearer the ideal than any type we know.

In the same size motor the exclusive Super-Six principle added 72% to power and 80% to efficiency. Endurance is practically doubled.

How these qualities are valued by motorists is reflected in Hudson's five years of leadership of fine car sales. Today the demand is larger than ever.

Built by the same makers, Hudson's unequalled records also speak for Essex. They foretold performance never expected of a light car.

The prophecies now are facts.

And Essex Holds the World's 50-Hour Endurance Record

An Essex stock chassis set the world's 50-hour endurance record of 3037 miles. That is officially certified by the American Automobile Association. And Essex holds the world's mark of 1061 road miles in 24 hours. A stock touring car did that.

Local road, speedway and hill-climbing records in every section of the country are held by Essex. Scores of abusive tests have proved the endurance that 30,000 owners find in the daily service of their Essex cars.

But it is not only in performance that Essex shows the same stamp of quality as Hudson. Its beauty of line, its luxury of appointment are the work of years of leadership in coach design.

See the care and completeness, even in the smallest details. Its riding comfort, its smooth, quiet running ease, with the suggestion of well-contained reserve power, are qualities comparable to the finest of high-priced cars.

TRANS-ATLANTIC AIRSHIPS ARE NEXT

The facilities of the great Ford or-

ganization for building a type of light, speedy aircraft recently were offered the United States government by Henry Ford. Predicting the future airship, he said: "Trans-oceanic airship travel, in ships notable for lightness and speed, rather than lifting

power, will be common beyond comment in from three to five years. Berlin and London will be a day from New York, the Pacific will be crossed and such ease of communication will go far toward breaking down the barriers of racial and national antipathy. It will promote one language, one creed.

"The airship, by promoting contact of peoples, would foster prejudice against war. I am ready to do anything I can to help the government. As in the past, I will build without profit.

"The airship of the future will not be any one standard design, but will be a combination of the rigid dirigible with the airplane. Chief attention must be given to the development of a light and powerful motor, gases lighter than air, and the reduction of weight even more than at present."

Mr. Ford has been experimenting with a motor suitable for such an airship.

BIG Reduction Sale in Military Department.—E. V. Elder.

WAR INCREASED TRUCKS ON FARM

Three general causes have contributed to the exploitation of the motor truck industry in rural territory—an industry which has an important effect on farm marketing costs.

These causes are: (1) The growth of our larger cities and the consequent development of nearby producing areas to provide for part of the food need of these cities; (2) the failure of the railroads to keep pace with the expansion of their short-hauling business; (3) the development of the motor truck manufacturing interests and the consequent extension of their sales campaigns.

The crisis in the transportation field, brought about by the national war emergency, afforded stimulus of the development of rural motor transportation more powerful than any other general influence. Doubtless the motor truck, in any event, would have established itself as a factor in the rural field, but ordinarily this would have been a slow process, involving the many preliminary steps.

Keep Up the Excellent Road Work Now Under Way, Says Hale Dean

J. H. Dean, of the Richmond Motor Company, has returned from an extensive trip overland through Ohio, and has nothing but praise for the country roads in general. He is an advocate of road improvement work, and says that Kentucky should continue with the good work already under way, and not stop until the highways are put in good condition. It is nothing out of the ordinary, he says, to have tourists speak of Kentucky's roads, especially those making trips south, since many of them are avoiding passing through this state, owing to the condition of the roads. Many of the little towns along the Dixie Highway are paved several miles out, and almost reach the paving started their way by the residents of the neighboring town. The highway through Kentucky in some places is in a deplorable condition. "I don't like to say it, but the worst road in Ohio is better than the best one in Kentucky," said Mr. Dean in speaking of the condition of the roads.

Kentucky is appreciated in many ways, but the tourist always remembers the state, after having passed through it, he declared, by the deplorable condition of the roads. Mr. Dean is of the opinion that much hard work and a big expense lies in the path of putting the roads in the proper and attractive condition. However, he believes that it will be done, and a continuation of the excellent work accomplished during the past few years will make a wonderful change.

AN ORDINANCE

Directing the Richmond Water & Light Company to lower water and gas mains and service pipes on East Main Street.

Whereas, the Ordinance heretofore adopted by this Board of Council for the reconstruction of East Main street according to plans and specifications, prepared by the City Engineer and incorporated in said ordinances and approved by this Board of Council, will require a change in the grade of a part of said street between Collins street and E street; and

Whereas, on other parts of said East Main street, between Collins street and E street, the water and gas mains and service pipes of the Richmond Water & Light Company are now laid so close to the surface as to obstruct and interfere with the reconstruction of said parts of said street in accordance with the ordinance, plans and specifications aforesaid; and

Whereas, it will be necessary in the said reconstruction of said East Main street between Collins street and E street for the Richmond Water & Light Company to lower all water and gas mains and service pipes in that section of said East Main street, so that the tops of said mains and service pipes shall be not less than ten inches below the new sub-grade at all points; and

Whereas, the City Engineer has prepared a grade for said mains and service pipes, showing all necessary changes and alterations necessary to be made, which is filed and attached hereto and made a part hereof, the same as if copied herein word for word and figure for figure;

Now, be it Ordained by the Board of Council of the City of Richmond, Kentucky, that said Richmond Water & Light Company be, and is hereby, required and directed to forthwith proceed to lower, alter and change the grade of all its mains and service pipes on East Main street, between Collins street and E street, to conform to the said plans and specifications prepared by the City Engineer. The said Richmond Water & Light Company will execute said work as promptly as possible and so as to interfere as little as practicable with the supply of water and gas to the citizens of Richmond.

This Ordinance shall take effect from and after its passage and publication as required by law.

Adopted this June 17th, 1920.

On rough, rutted roads or smooth stretches of city boulevards, the Auburn's mastery is evident. There is a sweetness in running and an ease of control that makes motoring a constant joy.

The Auburn all-weather Sedan is truly a year-round car. Warm comfort and delightful luxury during the colder months; open car freedom in fairer seasons.

WOMEN NEED NOT STAND IT

Lydia E. Pinkham's Vege-
table Compound Surely Re-
moves Suffering and Pain.
Here is Proof.

St. Paul, Neb.—"I suffered with
periodical pain for about four years so
that I was unable

to do my work at
times. A friend told
me about Lydia E.
Pinkham's Vege-
table Compound and
I took it. It soon
stopped all my suf-
fering so that I am
now feeling fine in
every way. I recom-
mend your medi-
cine to my friends
who have similar
troubles. You may publish this letter
for the benefit of other women."—Mrs.
WILL THOMAS, St. Paul, Neb.

Lydia E. Pinkham's Vegetable Com-
pound, made from native roots and
herbs, contains no narcotic or harmful
drugs, and today holds the record of
being the most successful remedy for
female ills we know of, and thousands
of voluntary testimonials on file in the
Pinkham laboratory at Lynn, Mass.,
seem to prove this fact.

For forty years it has been the stand-
ard remedy for female ills, and has re-
stored the health of thousands of women
who have been free from suffering by
its use.

Who Will Be the Husbandman?

Some Boaz may catch a Ruth, right here. Some of you old "birds" who have no mate. Get a pretty cage like this; you will get the singing bird.

THE SHELBY JETT FARM

—NOW OWNED BY THE UNDERSIGNED—

308 Acres Fine Blue Grass Land

subdivided into 50 to 200 acre tracts, well improved, gently rolling and up selling without reserve or limit.

LOCATION—Seven miles from Richmond, 2 miles from Kirksville and graded school; on either side of pike; adjoining the lands of Thomas Curtis and other good men, (and these are assets in any community.

IMPROVEMENTS—Handsome two story brick dwelling, must be seen to be appreciated; words will not describe the grandeur of this ideal home and its beautiful surroundings; excellent water sys-
tem, with gravity pressure, insuring a flow at all times at a minimum or no cost; two garages, 2 stock barns, 3 tobacco barns, 2 silos, 4 small houses, two of which are good ones of 5 rooms each; 180
gallon underground gasoline tank, ice house, etc. Too much improvements? No. not an item out of proportion to this magnificent boundary of land.

We claim and stand for public contradiction that there are no less than \$250 per acre improvements on this 308 acres of land. Don't stand and say no, go see for yourself; place them at their fair
value of today; they are absolutely essential, adding both to the comfort and necessities. Then they are an asset to be credited to the cost of the land for if they were not there a liability would be encoun-
tered as you would have to have them. Bear these facts in mind and you can readily figure what the land is costing you.

150 Acres Fine Tobacco Land

There is no less than 150 acres finest of tobacco land; 100 acres in old blue grass sod, and sand stone at that. It will pay for itself rented out. Opportunity knocks at the door of the man who can
make the first payment; you will not have to bother about credit, it lies in the land and goes with the deed to the party or parties that buy it. Buildings on every tract.

MUSIC BY EXCELLENT BAND.

Any man who has a fond sweet wife who has more than borne her side of ox yoke would love to work and save when a home like this was put ahead. Make your boys your partners if you want them to
stay at home and fatten on the gold of life, you must leave the gates ajar, and let them have some of the pickings; your home will be nearer what it should be and they had rather be there than any other
place. Practice this and sell your automobile.

Now if any of you good women are affected with any of these husbands who see hard times coming, all the clouds look like a cyclone and lost their silver lining, if any of you ladies have a husband like
this, a simple remedy justified by the unwritten law, ask Tony Burnam, or any other lawyer, they will tell you; ask Moss Gibson or any other doctor in Richmond, if this simple remedy would not be the
correct course to pursue: Take your hog box filled with 50 pounds of ice, 40 gallons of stagnant pond water, use 1 gallon sheep dip, soak him three days until bugs are removed, then take a small oak
board, whip him out of the tub, lay him across a hemp break in the sun, let him dry for six hours, give three dog buttons using skimmed sour milk as a chaser, wrap him in a horse blanket, place him in a
4-year-old straw mattress, use a fly bush made of mullein stalks, see that bed bugs are diligent, have a loaded musket in easy reach of the patient. If he or she should feel like it would add to his or her
comfort, see that it is promptly used. And should death ensue, bury him with military honors omitting floral designs except dog fennel blossoms; inscribe on marker "Here rests his head, on the lap of
earth, a man to fortune and fame unknown, fair science smiled not on his humble birth and melancholy marks him for her own."

The sale will last but 50 minutes, after which the band will play "Hold That Wood Pile Down."

Terms announced at sale. For further particulars see Covington Jett on the premises, or the undersigned.
